## PROFILE

A highly skilled software engineer with over 6 years of experience in software testing and development. Specialized in C#, .NET 8, JavaScript, and modern web technologies, with proven expertise in building automated test frameworks and CI/CD pipelines. Successfully implemented BDD and TDD practices across multiple enterprise projects. Demonstrated ability to collaborate with cross-functional teams to deliver high-quality software solutions that meet business objectives.

## TECHNICAL SKILLS

### Programming & Frameworks

- Languages: C#, JavaScript, SQL
- Frameworks: .NET 8, NextJS, React, Tailwind CSS
- Testing Frameworks: Selenium WebDriver, SpecFlow, WebdriverIO, Cucumber

### Tools & Technologies

- Automation: Postman, REST Assured, TestNG
- Version Control: Git, GitHub
- CI/CD: CircleCI, Azure DevOps
- Bug Tracking: Jira, Azure DevOps, Xray
- Databases: MySQL, SQL Server, JDBC

### Methodologies

- Agile/Scrum, Waterfall
- Behavior Driven Development (BDD)
- Test Driven Development (TDD)
- Software Development Life Cycle (SDLC)

## PROFESSIONAL EXPERIENCE

### UCare, Madison, WI

12/2023 – Present

*Software Developer/Quality Assurance Analyst*

- Developed and maintained automated test scripts using .NET SpecFlow framework, improving the efficiency of the testing process for the member portal.
- Refined UI elements and logic with Sitecore CMS and NextJS.
- Worked with teams to test APIs and integrate different parts of our systems.
- Contributed to the Agile transformation, ensuring smooth adaptation of test practices within cross-functional teams.

- Collaborated with developers and business analysts to refine user stories and translate them into software solutions.

## **Novs Web Design Group, Madison, WI**

**07/2024 - Present**

### *Freelance Web Developer ([Github](#))*

- Developed and maintained responsive websites using Next.js, CSS, and JavaScript for small businesses, delivering scalable and user-friendly web applications.
- Focused on optimizing websites for performance, security, and accessibility.
- Collaborated closely with clients to define requirements, translating business needs into technical solutions.

## **Scratch Foundation, Seattle, WA**

**09/2022 – 08/2023**

### *Quality Assurance Engineer*

- Set up testing processes from scratch and built automation using WebdriverIO
- Created API tests using Postman to ensure reliable service integration
- Led a successful testing effort for our translation service update
- Set up and managed cross-browser testing using Browserstack
- Helped newer team members learn automation best practices

## **Bank of America, Seattle, WA**

**12/2019 – 09/2022**

### *Software Development Engineer in Test*

- Built and improved our test automation framework using Java and Selenium
- Created effective test scenarios using Cucumber for better team collaboration
- Set up backend testing processes using REST Assured and Postman
- Improved our testing approach by implementing Page Object Model
- Automated data handling for tests using Apache POI

## **Vanderbilt University Medical Center, Nashville, TN**

**08/2018 – 11/2019**

### *Quality Assurance Engineer*

- Created and ran tests for critical healthcare applications
- Set up database testing using JDBC to ensure data accuracy
- Managed test runs using Maven and TestNG
- Improved our regression testing process
- Tracked and documented issues effectively using Jira

## **EDUCATION**

---

### **Glion Institute of Higher Education**

**2013-2016**

*Switzerland*

Hospitality Management with Real Estate Finance
